Optimizely Cyberattack - November 16, 2026

> While Citizens National Bank was not affected by the November 16, 2026, Optimizely cyberattack, if you visited one of the 178 websites affected, your information may be at risk. If you visited one of the websites, below are some recommended steps:

Recommended Steps:

- **Update your devices:** Install the latest operating system and security patches on your iPhone, iPad, tablet, and computer—especially older iPhones and iPads, which face exploit risks.
- **Check card and bank statements:** Review recent transactions for unfamiliar charges, particularly if you entered payment card details on an affected site on Monday, November 16. Report unauthorized charges to your bank or card issuer right away.
- **Verify cryptocurrency transfers:** If you copied a wallet address or sent cryptocurrency around November 15–16, confirm that funds went to your intended recipient address. The malicious script attempted to swap copied wallet addresses.
- **Watch online accounts:** Look out for unexpected login alerts, password change notices, or suspicious activity on accounts you accessed on affected sites, and change passwords if something looks off.
- **Watch for official notices:** Keep an eye out for updates from the specific organizations you visited, as many continue to investigate.
